

Brian VanderHoff

Kalamazoo, MI

My name is Brian VanderHoff. I grew up swimming from a young age and continued swimming competitively through high school at Rockford High School and one year at Calvin College. I swam distance in both high school and college swimming both 500 freestyle and the 1650. In college I coupled my distance events with 200 butterfly. I have also bike raced and competed in triathlons. I am currently an engineer at Pfizer in Kalamazoo and have worked there over 25 years.
